

Cooperation of company KROS INC. and Civil Association EDUCATION-SCIENCE-RESEARCH

Company KROS INC. (*Company*) decided in 2012 to establish cooperation with Civil Association EDUCATION-SCIENCE-RESEARCH (ESR), which supports development of education, science and research by using modern technologies and resolving scientific research projects. Subjects of this cooperation are following:

- education,
- creation of common courses,
- support of promotional activities.

By discussions it was approved that ESR will be with the support of the *Company* authorized in following activities:

- lectures / courses of Energy economics,
- lectures / courses at high schools aimed to promote products of the company KROS INC.

Company helps Slovak high schools with teaching of economic subjects, accounting and construction. It realizes that it is necessary for teaching of young people to be supported by newest technologies and quality software. Therefore, the *Company* carried out an extensive project *Support of schools* and provides:

- free school versions of programs ALFA plus, OLYMP, OMEGA, CENKROS plus,
- free upgrade,
- 2 free pieces of user manuals for each program,
- free use of services HOT-LINE,
- free e-mail newsletter of the project,
- participation at all types of training with 60 % discount,
- other publications and services with 60 %.

Upon acceptance of specific conditions also provides:

- 15 free pieces of user manuals for each program,
- free training of pedagogues in the office of the *Company*,
- free training of pedagogues in the school area (reimbursement of only travel costs),
- free help with installation of PC programs in the school area (reimbursement of only travel costs),

- free regular training for pedagogues,
- free award certificates of the *Company* for students.

School version is the full version of the program, which is provided for educational facilities and educational organizations in Slovakia exclusively for teaching. School versions of programs ALFA plus, OLYMP and OMEGA does not allow to enter dates in months July and August, i.e. the program can be used also in these months, however with different dates. School version of CENKROS plus does not allow to export/import contracts and print reports in MS Excel format and print reports contain information that they have been processed in a school version. Every type of school facilities (primary, secondary, Universities) have right for school version regardless of the type of founder (with legal personality, private, public, etc.) and all types of educational organizations (academies etc.). School versions of programs are provided in accordance with applicable policy of the company. Further information for participation on the project are available on <http://www.kros.sk/skolskeverzie#Projekt>.

Since September 2012 the *Company* prepares seminars for pedagogues of economic schools. Seminars are designed for pedagogues, who participated in program of continuing education, or teach by economic programs of the *Company*.

Company KROS INC. is trying to cooperate with the Civil Association EDUCATION-SCIENCE-RESEARCH on a professional level, which can be beneficial for all involved in education.
