

Informatics 2013

The 12th International Scientific Conference

Spišská Nová Ves, Slovak Republic, 5th–7th November, 2013

GENERAL CHAIR

Liberios Vokorokos, Dean of Faculty of Electrical Engineering and Informatics, Technical University of Košice (SK)

HONORARY CHAIR

Ivan Plander, Slovak Society for Applied Cybernetics and Informatics (SK)

The 12-th International Conference Informatics'13 is a biennial international forum which gives room for scientists, experts in computer science and professionals in new emerging fields of informatics to present original research results, to share experience and to exchange ideas about transferring theoretical concepts into real life. The conference provides a unique opportunity for establishing and maintaining professional relationships of widely recognised scientists between each another in specific areas of computer science.

CONFERENCE TOPICS ARE AS FOLLOWS:

1. Computer Architectures
2. Computer Networks
3. Theoretical Informatics
4. Programming Paradigms, Programming Languages
5. Software Engineering
6. Distributed Systems
7. Computer Graphics and Virtual Reality
8. Artificial Intelligence
9. Knowledge Management
10. Information System Research
11. Applied Informatics and Simulation
12. Informatization of self-government in the Information Society

IMPORTANT DATES

Abstract submission extended to:	July 15th 2013
Full paper submission:	September 1st 2013
Notification of acceptance:	September 30th 2013
Registration, payment, conference program:	October 10th 2013
Conference:	November 5th-7th 2013

All informations about conference can be found at conference web site
